Administrator,

I have attached a revised memo which we think may be even more compelling and helpful. (sorry that it wasn't included in the previous email.) We are available for a call anytime today or tomorrow that is convenient for your team.

Again, we hope the EPA will consider revoking the field trial permit EUP for the referenced technology until the EPA can complete a full impact study on humans and the environment.

Thanks for your interest and consideration.

Respectfully and best regards
